

Guidelines for visiting dogs and their people. During *Acoustic Sunsets* (Wednesdays from 5:00 – 8:00 p.m. seasonally from May 7 to Oct. 29), well-behaved, leashed dogs can join you on your Garden visit! Any pup or person who cannot follow these guidelines will be asked to leave.

	<p>Well-behaved dogs & people are welcome.</p>
	<p>Dogs must be leashed <u>always</u>.</p>
	<p>Pick up after your dog.</p>
	<p>Both people & pups should stay on the path.</p>
	<p>Please be mindful of the Garden's rare and endangered living collection and discourage your dog from marking every spot they find – especially on sensitive species. Urine has high levels of nitrogen which can be harmful to plants.</p>
	<p>Our ponds support a delicate ecosystem – please do not allow your dog to swim or drink from them.</p>
	<p>We share the Garden with wildlife. Please keep them and your pup safe by staying on primary paths. Taking your dog down narrow paths with rock steps is not recommended as they are more likely to encounter ticks, rattlesnakes, and predators.</p>
